STONEPEAK PRESENTS

# PORCELAIN TILE: THE GREENEST CHOICE FOR FLOORING

Learn why porcelain tile is the most ecofriendly choice for flooring material and the ideal choice for sustainable design. This course will walk through the closed-loop manufacturing process, from raw materials to firing. It will talk about the sustainable characteristics of porcelain tile and explain how porcelain tile relates to green building rating systems, like LEED®.

## LEARNING OBJECTIVES:

Participants will:

- Recognize the characteristics that define porcelain tile
- Understand porcelain tile is manufactured
- Learn why porcelain tile is the greenest choice of flooring material
- Gain knowledge about how porcelain tile relates to green building rating systems

PROVIDER/COURSE NUMBER: AIA: J842/SPC010; IDCEC: CEU-106893

LENGTH/CREDIT: AIA: 1.0 LU/HSW; IDCEC: 0.1 CEU

**MADE IN THE USA**

## FORMAT:

This workshop is presented through a visual presentation and discussion.

## COST:

Free

## FACILITATOR QUALIFICATIONS:

Facilitators are considered experts in the tile industry. They are also trained presenters.

## TARGET AUDIENCE:

Anyone interested in learning more about tile manufacturing, such as architects, specifiers and other design professionals. This program meets every experience level and includes a question and answer session to address specific interests.
